## HAM RADIO 2016: very great vibes!!!

This year **EURAO** had a larger booth at the German fair in Friedrichshafen, where several associations from different countries shared space. In this way very positive synergies for all participants and frank climate of multinational collaboration was generated.

Multiple events and meetings took place in this unique setting of friendship, such as **EURAO** Assembly, **YO SOTA Marathon Conference**, ...

### 356,33 Mbps - 304 Km: New Wireless Broadband World Record **nuevo**

Our Italian member association **CISAR**, together with the **International Centre for Theoretical Physics (ICTP)** and **Ubiquiti Networks**, set this new world record in its link between Mount Amiata, in Tuscany, and Mount Limbara, in Sardinia, in early May this year.

The previous record was achieved also by **CISAR** in 2007 over the same path though then only showed a maximum speed of dozens of Mbps.

It is worth remembering here that **CISAR** network was awarded in the Honors Program 2011 of the prestigious **ComputerWorld** magazine.

### YPOIP: Atlantykon 2016 - Summer Academy for Youth **nuevo**

From 29 July to 7 August, the 27th edition of this event was held in Capidava, Romania, with topics such as: Science, Culture, Art and Sport.

500 young people participated in 30 different workshops. One of them, in the Science domain, was "Radio Communication", prepared, organized and conducted by our member association **ARR**, with activities such as: HF and VHF contacts, foxhunt party with directive antennas, QSL exchange, ...

## EURAO Party - Summer 2016: sat kick-off

The **European Radio Amateurs' Organization** announces a new party on the air, this time with the motto: "*sat kick-off*". Remember this is not a contest, it is just a radio meeting with a few simple 'rules', better to call them recommendations.

**Purpose:** to start with satellite communications, the [AO-85](#) is suggested. It has one FM channel with downlink in VHF. SWLing is possible and recommended.

**Date & time:** September 24th and 25th, 2016, Saturday and Sunday, 00:00-24:00 UTC.

**Bands & modes:** these are the frequencies of AO-85 satellite: uplink 435,180 MHz FM with tone 67,0 Hz and downlink 145,980 MHz FM. Tools: [Tracking](#), [Status](#).

**Call:** "CQ EURAO Party".

**Exchange:** because this is a QSO event, not a contest, you can talk about whatever you want, in any language, and for as long as you like. **In Sat QSOs shortness and locator exchange is a must.** Here are some topic suggestions to get the conversation going: name, city, locator, weather, antennas, rigs, etc.

Also talk about QSL interchange. Tell the truth. Say "no, thanks" if you are not interested in QSL cards. But if you would like to have a memory of your contact, feel free to use our **EuroBureauQSL** (see below).

**Logs:** for statistic purposes only, we ask participants to submit their logs to [party@eurao.org](mailto:party@eurao.org) in ADIF format, where the filename should be your callsign (e.g. EA3RKF.ADI).

There will be no results or league tables, only statistical information about number of QSOs, countries, callsigns, OMs/YLs/Clubs, etc.
