EURAO General Assembly 2021: more live participation and...

The **General Assembly 2021** of **EURAO** was held the last Saturday of June via internet, with more people participating live and more topics to discuss than ever.

One of the most interesting addressed points was the call for participation in projects such as: its own **Emergency Communications** coordination, the setup of an **European DMR network** and a new **DXpedition team**.

So those interested in the call for **Emergency Communications** coordination, made by the member association **IECRO**, please contact Mark: [mbannon\[at\]iecro\[dot\]com](mailto:mbannon[at]iecro[dot]com).

For the participation in the **European DMR network** project, the contact person is the Vice-president Giorgio: [iw3ibg\[at\]eurao\[dot\]org](mailto:iw3ibg[at]eurao[dot]org).

And to be part of the future **EURAO DXpedition team**, which will be led by the President Petrica, you can contact him: [yo9rij\[at\]eurao\[dot\]org](mailto:yo9rij[at]eurao[dot]org).

As a consequence of the **CB QSL Party** , run this summer together with the member association **FEDI-EA**, it was requested that the configuration of the **EuroBureauQSL** that includes the QSL service for CB operators remains permanent. No objection was found to this proposal and it was enthusiastically welcomed.

The Assembly was informed about the participation of **EURAO** in the following **CEPT** web-meetings during the first half of this 2021: WG FM #96 and SE40 #73.

Special mention deserves the spectacular growth of those enrolled in the **Radio Amateur Insurance**, which exceeded **237%** of the forecast. In addition to individual members paying the fee recurrently, the members of the Board of Directors, as well as the club station callsign of member associations and clubs&groups were also included in the insurance policy. This means that any activity organized by these associations is covered by the insurance. Have fun, but sure!

How to become member of EURAO

Participating in UKW FUN 1.0

nuevo

The President of **EURAO**, Petrica, YO9RIJ, (left) participated the weekend of September 10-12, 2021, in the Romanian's largest amateur radio event: **UKW FUN 1.0**, led by the team: YO2LSP, YO5LD and YO3GEJ.

The event brought together a lot of beginners and OMs interested in UHF technology, who exchanged experiences and "secrets" about antennas, equipments, contests, etc.

EURAO Party - Summer 2021: CB QSL Party

The **European Radio Amateurs' Organization**, supporting the initiative of its member association **Federación Digital EA**, announces a new party on the air, this time with the motto: "**CB QSL Party**". Remember this is not a contest, it is just a radio meeting with a few simple 'rules', better to call them recommendations.

Purpose: To facilitate the **free** exchange of QSL cards between CB users, regardless of their membership association, if any, through the **EuroBureauQSL**. The only requirement is to use callsigns of the DX type which prefix is according to "**CB divisions**". Contacts in any activity are valid for this Party. All QSLs can be sent together in a single envelope to the entry point. Non-EURAO members should send a SASE for the response.

Date & time: from June 1st to September 30th, 2021, 00:00-24:00 UTC.

Bands & modes: all modes in the Citizens' Band (CB), also called 11m or 27 MHz band. For more specific info, have a look to the [EURAO Frequency Guide](#) (EFG).

Call: "CQ EURAO CB QSL Party".

Exchange: because this is a QSO event, not a contest, you can talk about whatever you want, in any language, and for as long as you like. Here are some topic suggestions to get the conversation going: name, city, locator, weather, antennas, rigs, etc.

Also talk about QSL interchange. Tell the truth. Say "no, thanks" if you are not interested in QSL cards. But if you would like to have a memory of your contact, feel free to use our **EuroBureauQSL** (see below).

Logs: for statutory purposes only, we ask participants to submit their logs to party@eurao.org in ADIF format, where the filename should be your call sign (e.g. EA3RKF.ADI).

There will be no results or league tables, only statistical information about number of QSOs, countries, call signs, OMs/YLs/Clubs, etc.

Certificate of Participation: for all those sending the log and without a minimum of confirmed QSOs.

EuroBureauQSL: you can use it to interchange QSLs even if you are not member. In this case, just send the QSL to the entry point in the country of the station you have contacted.
