'Clubs&Groups' membership is taking off...

Launched last year, this new membership category is starting to work now, at the beginning of the year.

The idea is to involve as many **radio amateurs** as possible in **EURAO**, because people is what really matters us. And their needs, their opinions, their motivations, ...

From a basic fee of just **30 EUR/year**, ALL members of a club can get access to: International QSL Service, Membership Card, Benefits Program, etc. **Why not give it a try?**

EURAO Party - Winter 2014: promoting HF Digital Voice

The **European Radio Amateurs' Organization** announces a new party on the air, this time with the motto: "*experiencing with digital voice*". Remember this is not a contest, it is just a radio meeting with a few simple 'rules', better to call them recommendations.

Purpose: to experience new modes (in this case Digital Voice), have fun and meet hams all over the world. Of course SWLs are welcome to participate.

Date & time: March 1st and 2nd, 2014, Saturday and Sunday, 00:00-24:00 UTC.

Bands & modes: these are the recommended frequencies for DV: 1.977, 3.732, 3.817, 5.403,5, 7.177, 7.190, 14.236, 14.240, 18.119, 21.313, 24.933 and 28.720 MHz.

FreeDV: [download](#) this open source software and give it a try. It implements **Codec2** and **FDMDV** modem, not patent restricted. Also take advantage of the utility: [QSO Finder](#).

Call: "CQ EURAO Party".

Exchange: because this is a QSO event, not a contest, you can talk about whatever you want, in any language, and for as long as you like. Here are some topic suggestions to get the conversation going: name, city, locator, weather, antennas, rigs, etc.

Also talk about QSL interchange. Tell the truth. Say "no, thanks" if you are not interested in QSL cards. But if you would like to have a memory of your contact, feel free to use our **EuroBureauQSL** (see below).

Logs: for statistical purposes only, we ask participants to submit their logs to [party@eurao.org](#) in ADIF format, where the filename should be your callsign (e.g. EA3RKF.ADI).

There will be no results or league tables, only statistical information about number of QSOs, countries, callsigns, OMs/YLs/Clubs, etc.

Certificate of Participation: for those sending the log and with a minimum of 10% QSOs confirmed.

EuroBureauQSL: you can use it to interchange QSLs even if you are not member. In this case, just send the QSL to the entry point in the country of the station you have contacted.

About our members...

It's time for '**Clubs&Groups**'. Let's introduce some of them:

[Tertúlia Radioamadorística Guglielmo Marconi](#) nuevo

TRGM, CS5TRGM, founded in 1976, has its headquarters in Coimbra and is one of the oldest associations of radio amateurs in Portugal. Since the beginning of **EuroBureauQSL** it has been the entry point in this country and maintains a very close relationship with **EURAO**. <http://trgm.blogspot.com/>

[Cuyo Radio Club](#) nuevo

CRC, LU1MA, founded in 1945 in Mendoza, owns a complete radio station for operation in all HF, VHF and UHF bands; several repeaters and beacons; library, meeting room, billboard, etc. Teach introductory courses. It is also in charge of the **EuroBureauQSL** entry point in Argentina. <http://www.lu1ma.org.ar/>

[Radiogrupu Sur](#) nuevo

RGS, CX3CCC, founded in 1984 as a **CB** user group, has evolved to the new challenges of amateur radio. Now, in its **30th anniversary**, it manages an awesome antenna field, several repeaters, a museum, etc. It is also responsible of **EuroBureauQSL** entry point in Uruguay. <http://www.radiogruposur.org/>

[Insubria Radio Club](#) nuevo

IRC, IQ2IR & HB9IRC, was founded in 2007 to achieve two main goals through its ham radio activities: charity actions and promotion of the Euroregion "Regio Insubrica", located between Italy and Switzerland. <http://www.insubriaradio.org/>
