EURAO Frequency Guide: a useful and interactive tool

Band	Frequency (KHz)	Mode	Submode	Notes
All bands	All modes	All submodes		
160m	1840,0	ROS		
160m	1840,0	FT8		
160m	1843,0	SSB	QRP	
160m	1845,0	SSB	Portable	
160m	1977,0	DIGITALVOICE		
80m	3558,0	ROS		
80m	3559,0	CW	Portable	
80m	3560,0	CW	QRP	
80m	3573,0	FT8		
80m	3580,0	PSK31		

As a result of data collected for **EURAO Parties**, a kind of QSO events held once in each season, a database has been created with most popular frequencies, modes and applications.

Now this database is available online, either by computer, mobile or tablet, and you can select easily the band, the mode and/or the application you would like to consult and get an immediate response.

This is the **EURAO Frequency Guide (EFG)**:

<http://eurao.org/efg>

Give it a try and let us know your comments, ideas, mistakes, modifications, ... in order to improve the project.

HAM RADIO+General Assembly 2018 nuevo

Meeting once a year in Friedrichshafen is a real pleasure and the opportunity to listen others' ideas, share experiences and discuss about common issues. So we did, but instead of waiting in the booth, the president went to the middle of the fair.

Other activities, such as the **EURAO's** General Assembly and the ID-CCS7 workshop of **DR@F** for French operators, took place in the booth.

Next year we will see there in **June 21-23, 2019**.

ECBF-EURAO partnership: working on a new collaboration nuevo

The **European Citizen's Band Federation** is an experienced organization, founded in 1976, and devoted to coordinate efforts and defend interests of CB users. It is member of **ETSI** and **AER**.

EURAO Board and **ECBF** Council members, in their regular contacts sharing experiences and views, have realized now that formalizing their relationship could be a good idea.

EURAO Award: number of applicants keep growing nuevo

The aim of the **EURAO Award** is to certify its holder has contacted with a certain number of different countries, some of them European ones.

At first, valid contacts were those related to cards managed through the **EuroBureauQSL (EBQ)**. Later, also other cards were accepted once presented to our **check points**.

Now, yourself can introduce in the **EBQ** website the QSOs with new countries, as long as they are confirmed by both sides in **eQSL** and both have **AG (Authenticity Guaranteed)**.

EURAO member associations

- **URC**: Union des Radio-Clubs et des Radioamateurs (France)
- **CISAR**: Centro Italiano di Sperimentazione ed Attività Radiantistiche (Italy)
- **FEDI-EA**: Federación Digital EA (Spain)
- **VRA**: Vlaamse RadioAmateurs (Belgium)
- **UFRC**: Union Francophone des Radio Clubs (Belgium)
- **HAG**: Ham Association of Greece
- **FEDERACHI**: Federación Clubes de Radioaficionados de Chile
- **FeRaCat**: Federació de Radioaficionats de Catalunya (Spain)
- **ARR**: Asociația Radioclubul României (Romania)
- **RCL**: Radioamador Clube de Loulé (Portugal)
- **RNRE**: Raggruppamento Nazionale Radiocomunicazioni di Emergenza (Italy)
- **UNGO UARL**: UNGO Ukrainian Amateur Radio League (Ukraine)
- **TRGM**: Tertulia Radioamadorística Guglielmo Marconi (Portugal)
- **ARRLx**: Associação de Radioamadores da Região de Lisboa (Portugal)
- **LigaCBR**: Liga Española de Asociaciones CB y Radioaficionados (Spain)
- **RFDX**: Romeo Foxtrot International DX Club (The Netherlands) nuevo

EURAO Party - Spring 2018: discover the WARC bands: 12m

The **European Radio Amateurs' Organization** announces a new party on the air, this time with the motto: "*discover the WARC bands: 12m*". Remember this is not a contest, it is just a radio meeting with a few simple 'rules', better to call them recommendations.

Purpose: 12m band is only 100 KHz wide (24.890-24.990 MHz) but it is quieter and less noisy than others, mainly on weekends when the big contests are underway. The idea of this party is to promote the band and its calm and peaceful use, ragchewing, having fun and meeting other hams all over the world. Of course also SWLing is welcome.

Date & time: June 16th and 17th, 2018, Saturday and Sunday, 00:00-24:00 UTC.

Bands & modes: these are the recommended modes/frequencies (+/-) for the 12m band: CW/24.890-24.915, digital/24.915-24.940, and SSB/24.940-24.990 MHz. [More detailed info](#).

Call: "CQ EURAO Party".

Exchange: because this is a QSO event, not a contest, you can talk about whatever you want, in any language, and for as long as you like. Here are some topic suggestions to get the conversation going: name, city, locator, weather, antennas, rigs, etc.

Also talk about QSL interchange. Tell the truth. Say "no, thanks" if you are not interested in QSL cards. But if you would like to have a memory of your contact, feel free to use our **EuroBureauQSL** (see below).

Logs: for statistic purposes only, we ask participants to submit their logs to party@eurao.org in ADIF format, where the filename should be your callsign (e.g. EA3RKF.ADI).

There will be no results or league tables, only statistical information about number of QSOs, countries, callsigns, OMs/YLs/Clubs, etc.

Certificate of Participation: for those sending the log and with a minimum of 10% QSOs confirmed.

EuroBureauQSL: you can use it to interchange QSLs even if you are not member. In this case, just send the QSL to the entry point in the country of the station you have contacted.
