ITU's Amateur Radio Handbook 2026 is now available

Featuring **EURAO**, you can find the current revision of the "Handbook on Amateur and amateur-satellite services", edited by the **ITU**, ready to download, at the moment only in English, Spanish and French. Its previous version dated back to 2014.

This is the result of the work carried out by the Working Party 5A (WP 5A), and specifically in the Working Group 5A-5 (WG 5A-5), in whose revision EURAO participated as a member of the ITU-R.

The scope of this Handbook is to provide general information about amateur and amateur-satellite services, including a compendium of existing ITU texts of relevance to amateur and amateur-satellite services.

This Handbook is intended to present, in one document, information about amateur services for administrations and amateur radio organizations.

EURAO General Assembly 2026: online on October 14

nuevo

The scheduled date for this year's **EURAO** formal **General Assembly** is: **Wednesday evening, October 14, 2026, at 19:00 CEST** (17:00 UTC), that will be held virtually using the Google Meet platform, as in the last editions. Those interested in participating (associations, clubs or individuals), ask for the link.

EURAO at HAM RADIO 2026 Friedrichshafen!

nuevo

This gathering was special once again, as we returned with a completely new team and, once more, with specific goals.

The RadioStiinta Association/**EURAO** team consisted of the children: YO9LMP, Calin, and YO9RYI, Rares, and on the adult side we were represented by two amateur radio operators: YO9AJM, Cristi, (who had just received his license), and YO9RIJ, Petrica!

Going International With a Foundation or Intermediate License

nuevo

By MOYGL: "Many will tell you it's impossible, but, believe it or not, operating internationally without full license, e.g. using a Foundation or Intermediate license, is indeed actually possible!"

"You can not just rock up in Spain and start to operate, you first need to obtain permission from the Spanish Ministry which can be a bit of a challenge. Thankfully there is an organisation called **FEDI-EA** who make this process much easier and accessible to non Spanish speakers..."

Ireland: EURAO participated in the review of the amateur radio exam

nuevo

This summer, sponsored by **ComReg** and conducted by a consultancy firm, the Irish members of **EURAO** provided their opinions and suggestions regarding what amateur radio examinations should look like in the future in that country.

Valuable information was also provided on how these exams operate in other countries and the state of amateur radio there.

We hope this input proves beneficial for everyone.

EURAO member associations

- **CISAR**: Centro Italiano di Sperimentazione ed Attività Radiantistiche (Italy)

[EANET Sprint Contest 2026: for international clubs and hams](#)

nuevo

On **November 1**, from 08:00 to 12:00 UTC, it will be held the next edition of the "sprint contest" version of the same name Award, devoted to the **"Radio Clubs of the World"**.

In just four hours you can win original and funny prizes that you can share with your mate or friends: hotels, restaurants, wellness or adventures.

Moreover, you will have the opportunity to contact those radio clubs you still needed to complete the **EANET Award**.
